

Now, DEMA® Has The Complete DRAIN and ODOR Control System Product Line

With the additions of the DRAIN CHIEF™ drain dosing dispenser and the PRO SCENTNAL™ odor control system to the SQUIRT™ compact drain dosing dispenser, DEMA answers every drain and odor control challenge.

The DEMA DRAIN CHIEF™ drain dosing dispenser has an easy-to-operate electronic timer and is equipped with a 12V plug-in transformer or optional battery pack, using 8 common easy-to-find “D” cell batteries. Multiple tube options include EPDM, viton, silicone and PVC accommodating almost any chemical. In addition, this worry-free grease trap system dispenser is housed in a locking, splash-resistant ABS enclosure with a pre-drilled mounting plate.

Large container deodorizing is just a spray away with the DEMA PRO SCENTNAL™ spray dispensing system. It has an easy-to-program mechanical timer encased in a strong ABS locking enclosure. A brass spray nozzle assures long-life in today’s tough environments. Tube options include EPDM, viton, silicone and PVC and there’s a convenient standard 115V wall plug. The PRO-SCENTNAL™ can easily tackle any odor control situation in trash chutes, dumpsters or large trash-collecting containers.

So, no matter what the drain and/or odor control application, DEMA has the perfect answer.
